

AIR MANAGEMENT TECHNOLOGIES, INC.
Building Energy & Environmental Services

GUARANTEED PROJECT SOLUTIONS

Guaranteed Solutions:

Process Cooling

- ◆ Mixer & Sponge Systems
- ◆ Chilled Ingredient Water
- ◆ Finished Product Cooling
- ◆ Blast Freezing
- ◆ Refrigeration

Process Heating

- ◆ Water Heating
- ◆ Steam & Hot Water Systems

Environment Conditioning

- ◆ Proofing/Retarding
- ◆ Spiral (Finished) Products
- ◆ Oven Steam
- ◆ Mold & Particulate Control

Industrial HVAC

- ◆ “Clean Room” Environments
- ◆ Makeup Air Systems
- ◆ Spot Cooling
- ◆ Space Pressurization
- ◆ Filtration
- ◆ Mechanical Cooling
- ◆ Ventilation

Waste Heat Recovery

- ◆ Ovens & Oxidizers
- ◆ Solar/Fuel Cells
- ◆ Compressed Air
- ◆ Industrial Fryers

Specialized Technologies

- ◆ Absorption Refrigeration
- ◆ CO2 Cascade Refrigeration
- ◆ Industrial Heat Pumps
- ◆ Solar/Fuel Cells
- ◆ Organic Rankine Cycle
- ◆ Low Charge Ammonia Systems

Our Commitment

“Guaranteed Solutions” is at the top of every Air Management Technologies proposal in **BIG BOLD** letters. This represents our acknowledgement and commitment to the trust you place in us. We have been serving the Wholesale Baking and Snack Food industries for nearly thirty years with Solutions which not only consider initial cost but also Food Safety, system reliability, and life cycle cost analysis through efficient and environmentally conscious design. No need to roll the dice. Been There. Done That. Proven Results.

Your Priorities Delivered

We understand “one size” does not “fit all”. We provide a customized approach based on your objectives and budget. From engineering assisted to full turnkey projects and everything in between, our goal is to provide you the **Guaranteed Solutions** with the most perceived value.

CUSTOMIZED SOLUTIONS TO MATCH YOUR BUDGET, YOUR RISK AND YOUR MANAGEMENT REQUIREMENTS

Engineering & Design

Utilizing quality engineering fundamentals, our team lays the foundation for every mechanical process. Investment in sound engineering ensures the project is “done right the first time” providing you both a financial return and peace of mind.

- ◆ Food Safety & Quality
- ◆ Reliability
- ◆ Low Life Cycle Cost
- ◆ Energy Efficient
- ◆ Environmental Factors

Equipment

Equipment is provided in accordance with the design intent (no cheap substitutes). With our purchasing power the goal is to offset the cost of Engineered Services while still providing a competitive price.

- ◆ National Agreements
- ◆ Nationwide Local Service
- ◆ Extended Warranties
- ◆ Specified Equipment
- ◆ Demonstrated Ability

WHOLESALE BAKING INDUSTRY

Project Management

Guaranteed Solution based projects offers both fulltime and when conditions allow less expensive balanced project management options. Client Managed Solutions negates this expense by shifting the responsibility and risk.

Construction

Construction costs are included in turnkey solutions with options for fixed or open book pricing at cost plus 10%. Client Managed Solutions negates this amount by shifting the responsibility and risk.

Commissioning

Commissioning is essential to ensure that all facets of the project are adjusted accordingly and operating as intended. This includes control loop tuning and balancing of air and water systems.

Training

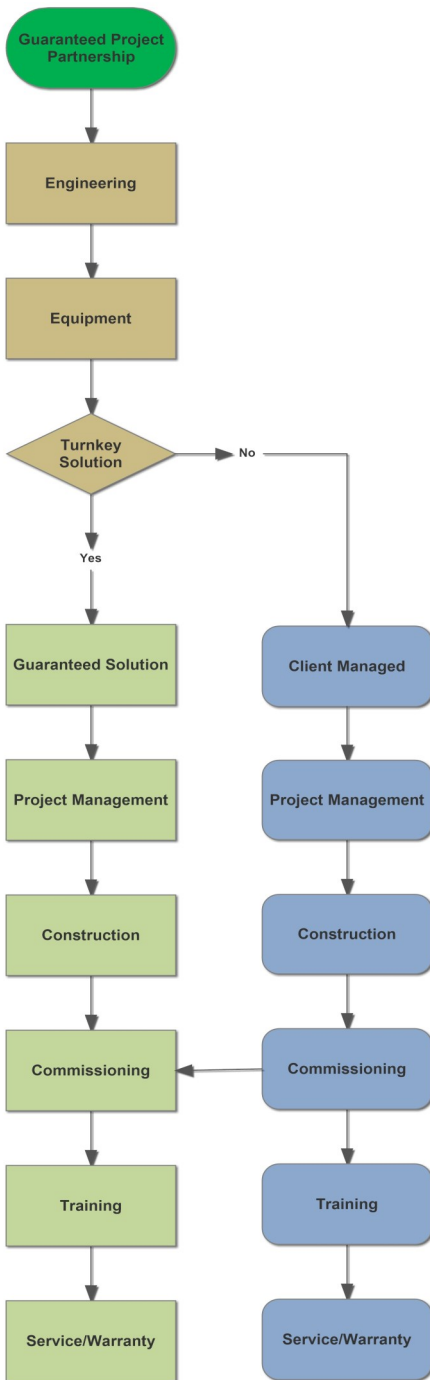

We understand that training is essential to protect your investment and ensure that your staff and designated outside support receives the necessary instruction on operation and maintenance.

Service & Warranty

Nationwide Service is available through our local partners providing emergency response, maintenance, and warranty services. In addition when remote monitoring is used we can assist with troubleshooting, ensure system efficiency, and identify problems even before they occur.

Consulting

We are not only about projects and want to be your trusted partner in providing analysis when existing systems and facilities are not meeting expectations. This has been a core of our business throughout the years and we have the expertise and test equipment to troubleshoot most operational, environmental, energy issues.

About Us

Air Management Technologies has delivered energy, thermal process conditioning, and environmental solutions worldwide for nearly thirty years. Our written performance guarantee places the responsibility in our hands and the life cycle benefits in yours. Cost conscious decisions are made with the customer in mind and every project is guaranteed to operate as specified.
