HVAC Comfort Applications

- Packaged Air/Heat
- Boiler Systems
- Heat Pumps
- Centralized Chilled Water
- Fluid Coolers and Cooling Towers
- Air Filtration
- Industrial Ventilation
- Split Systems

Performance Based Contracting

- High Efficiency Equipment
- Facility Control Systems
- Micro Turbines
- Lighting Upgrades
- Combined Cooling, Heat, and Power
- Variable Frequency Drives
- Sustainable Energy Systems
- Guaranteed Returns

Process Piping And Insulation

- Steel and Copper Pipe Fitting
- Mechanical Insulation
- Sheet Metal Ducting
- Glycolic Fluid Pumps
- Low and Medium Pressure Steam Systems
- Tank Insulation
- Pipe Jacketing
- Natural Gas Distribution

Refrigeration Services

- Walk in Coolers & Freezers
- Ice Makers
- Cold Storage Facilities
- Impingement Freezing
- Ammonia/CO2 Cascade
- Refrigerant Management
- Glycol Refrigeration
- Process Product Cooling
- Central Plants
- Ingredient Water Equipment

Preventative Maintenance

- HVAC Systems
- Process Environmental Equipment
- Industrial Heat Pumps
- Water Backflow Prevention Devices
- Steam and Hot Water
- Chemical and Ammonia Refrigerant Based Systems
- Advanced Diagnostics

Engineering and Mechanical Services

- Energy Consulting
- Water Conditioning
- Facility Audits
- Clean Rooms
- Mold Testing
- Commissioning Services
- Air and Water Systems Testing & Balancing
- Utilities Metering
- Heat Stress Evaluation

Registered P.E. Drawings
