AIR MANAGEMENT TECHNOLOGIES, INC.
Building Energy & Environmental Services

**Certified Testing and Balancing
(WECS TBCC)**

Food Processing Thermal and Sustainable Supporting Services

Waste Heat Recycling

- Oven Exhaust
- Oxidizer Discharge
- Fuel Cell Stack
- Compressed Air
- Fluid Coolers and Cooling Towers
- Industrial Fryers
- *Other Waste Thermal Exhaust Streams*

Product Conditioning

- Spiral Coolers
- Blast Freezers
- Proofers
- Kettles
- Fermentation Rooms
- Retarders
- Industrial Heat Pumps
- *Other Heat and Cooling Processes*

Central Glycol Refrigeration

- Central Chillers
- Glycolic Pumps
- Heat Exchangers
- Glycol Management
- Control and Balancing Valves
- Ingredient "Ice" Water Chillers
- Energy Optimization

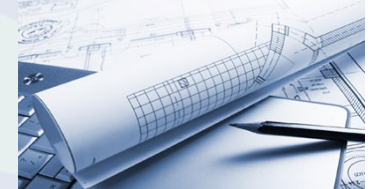

Industrial Ventilation

- Cold Storage
- Space Pressurization
- Facility HVAC
- Exhaust Fans
- Air Filtration
- Building Control Systems
- Sanitary Design
- Make Up Air
- Panel Cooling
- Air Distribution Balancing

Technologies Available

- Sustainable Energy Systems
- Ammonia/CO2 Cascade Freezing
- Industrial Heat Pumps
- Chemical and Natural Refrigerants
- Combined Cooling, Heat, and Power

Engineering and Mechanical Services

- Refrigeration
- Comfort HVAC
- Automated Controls
- Facility Audits
- Water Heating
- Mechanical Design and Installation
- Environmental Impact Reduction Initiatives
- Preventive Maintenance and Repair Services

Turnkey Design Requirements Development, Engineering, and Construction Available.
