

AIR MANAGEMENT TECHNOLOGIES, INC.
Building Energy & Environmental Services

Capabilities Statement

For over 30 years, we've delivered Guaranteed Solutions for process heating, cooling, and HVAC in Food Production Facilities across North America. Our technical approach ensures performance expectations are met efficiently—reducing costs while maintaining uncompromised Food Safety.

Core Competencies

We specialize in application specific process heating, cooling and air management in Baking facilities.

- Chilled Water BHX
- Blast Freezing
- Clean Rooms
- Oven Heat Recovery
- Dehumidification
- Mixer Refrigeration
- Spiral Conditioning
- Industrial HVAC
- Proofing & Retarding
- Product Cooling

Differentiators

Our experienced Team executes projects with deep specialization in bakery system design and integration—unlike firms without sector-specific experience. We bring a proven track record in thermal systems, airflow, and hygienic design. As members of the baking industry, we engage in a collaborative technical community.

Experience & Qualifications

We bring extensive experience working with new and existing Food Process Facilities of all sizes—from small bakeries to large wholesale operations. Our solutions integrate process cooling, heating, and facility air management, addressing both full-system needs and specific single-point requirements. Using a technical applications approach grounded in scientific analysis, we deliver optimized, energy-efficient solutions tailored to each project. We can operate as a single-point contractor or partner with others to provide turnkey projects. With in-house engineering, construction, controls, and commissioning, we ensure systems perform as specified—on time and within budget. We are consistently recognized for our industry contributions, and hold proprietary and patented technologies that reflect our commitment to innovation and quality.

Company Snapshot

Established: 1993
CAGE: 3MJVI
DUNS: 794168484

Serving the continental United States for turnkey and design/build/bid projects.

NAICS Code

238220- Plumbing, Heating, and Air- Conditioning Contractors

Small Veteran Owned Business

VOSB: 132280-2024-06-VBE

Licences & Certifications:

PA: 031366
Test & Balance: WECS TBCC: 20022
Certified Energy Manager: CEM: 2762
Certified Indoor Air Quality: CIAQP: 80
Professional Engineer
